Welcome To

Shandong Hengyi New Material Technology

Co., Ltd

Your reliable partner in fluoropolymer field.

ABOUT US

We are a large-scale manufacturer and supplier of types fluoropolymers with more than 20 years experience in the field.

Our products cover from fluoropolymer raw materials FEP, PFA, ETFE, PVDF PTFE resin to fluoroplastic products.

Factory Overview

We have advanced production equipment, dynamic technology and research team to provide possibility of sustainable innovation.

We also have strict quality control system to make sure steady product quality and supply.

- **PVDF Sheet**

Standard specification:

Thickness: 3mm, 4mm, 5mm, 6mm, 8mm, 9mm, 10mm, 12mm, 15mm, 20mm, 25mm, 30mm, 35mm, 40mm, 45mm, 50mm.

Dimension: 1000x2000mm, 1500x3000mm, 1220x2440mm.

In addition, we can produce PVDF sheet as your requested dimension and specification

- **Glass Fiber Backed PVDF Sheet**

Standard specification:

Thickness: 3mm, 4mm, 5mm, 6mm, 8mm, 9mm, 10mm, 12mm, 15mm, 20mm, 25mm, 30mm, 35mm, 40mm, 45mm, 50mm.

Dimension: 1000x2000mm, 1500x3000mm, 1220x2440mm.

In addition, we can produce glass fiber backed PVDF sheet as your requested dimension and specification

• PVDF Sheet Properties

- Mechanical strength and toughness
- High abrasion resistance
- High tensile strength
- High thermal stability
- High dielectric strength
- High UV-resistance
- High purity
- Relatively high coefficient of thermal expansion
- Resistance to most chemicals and solvents

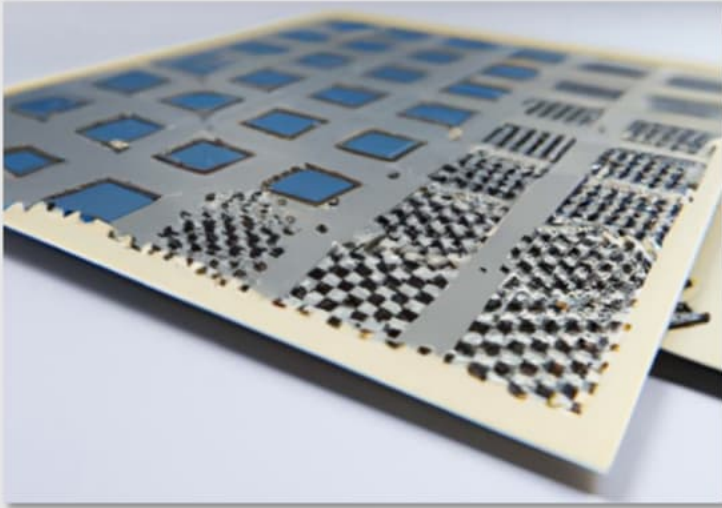

- **PVDF Sheet Applications**

In chemical processing, PVDF sheet is commonly used for manufacturing chemical storage tanks, pipes, and fittings. The material's excellent chemical resistance ensures that the equipment remains unaffected by harsh chemicals and avoids contamination risks.

- **PVDF Sheet Applications**

PVDF sheet also widely used in semiconductor industry, power and electrical engineering, solar photovoltaic, laboratory engineering, food industry, environmental technology, high purity water etc.

Fluoro-plastic Products

- **PVDF Rod/Bar**

Standard specification:

Diameter: 10mm, 15mm, 20mm, 25mm, 30mm, 35mm, 40mm, 45mm, 50mm, 55mm, 60mm, 65mm, 70mm, 75mm, 80mm, 85mm, 90mm, 95mm, 100mm, 110mm, 120mm, 130mm, 140mm, 150mm, 160mm, 170mm, 180mm, 200mm.

Length: 1000mm

In addition, we can produce PVDF Rod/Bar as your requested dimension and specification

Fluoro-plastic Products

- **PVDF Tube/Pipe**

Standard specification:

Diameter: 20mm, 25mm, 32mm, 40mm, 50mm, 63mm, 75mm, 90mm, 110mm, 125mm, 140mm, 160mm, 180mm, 200mm, 225mm, 250mm, 280mm, 315mm, 355mm, 400mm.

Length: 1000mm

In addition, we can produce PVDF Tube/Bar as your requested dimension and specification

ISO, REACH, RoHS Compliant
